Re: Town of Killen WWTP
AL 0078875

August 15, 2008

Dear Ms. Dean,

I am writing in response to your concerns regarding the location of Alabama Utility Services', LLC, ("AUS") proposed facility, which you raised in a letter dated July 9, 2008. First, let me thank you for giving us the opportunity to respond to your concerns and the time to research this issue. AUS appreciates and understands the pressure, political or otherwise, that the Alabama Department of Environmental Management is under to make a decision on this permit.

As to whether Alabama Utility Services, LLC ("AUS"), still plans to locate its proposed facility on the property, as indicated in AUS' permit application, the answer is yes. We are currently discussing this issue with the subject property owner and believe that we will be able to negotiate suitable terms for the use of this property as was indicated in AUS' permit application. This issue will be resolved by the time the Alabama Department of Environmental Management makes a decision on the requested permit. Moreover, AUS fully understands that if, in the unlikely event, it cannot negotiate suitable terms for the use of this property, AUS will be required to either apply for a permit modification or a file a new permit application in accordance with ADEM procedures.

For this reason we request that your permit application evaluation continue. We will be glad to work with you to address any other questions or issues which have been raised during the comment period. Again, thank you for allowing us to respond to your concerns. If you have any questions concerning this or any other issue, please contact me.

Sincerely,

ALABAMA UTILITY SERVICES, LLC

C. W. Matthews, Manager
